

Dear Parents/Carers of Year Six,
Spring Term First Half 2023

Here is our topic for this half-term. Please use it to support your children's learning.

As Citizens we will:

RE

Be able to explain why Hindus need to 'be good'

PSHE

Be able to describe our strengths and goals and know how we can help others to make the world a better place.

As Artists we will:

Investigate the work of Henry Moore and create our own sculptures in his style.

As Readers we will:

Participate in whole class reading lessons.
Read "The Nowhere Emporium" by Ross Mackenzie.

As Athletes we will:

Take part in weekly indoor and outdoor P.E lessons.

The Big Question:

What would a journey through the body look like?

As Authors we will:

Learn to write an explanation text based on "Anatomy" by Helene Druvert.

As Computer Technicians we will:

Learn how to use spreadsheets.
Learn how to plan, create and present our own blogs.

As Musicians we will:

Develop our listening, appraising and performing skills through exploring 'A New Year Carol' by Benjamin Britten.

As Scientists we will:

Identify and name the main parts of the human circulatory system, and describe the functions of the heart, blood vessels and blood
Recognise the impact of diet, exercise, drugs and lifestyle on the way their bodies function
Describe the ways in which nutrients and water are transported within animals, including humans.
Plan different types of scientific enquiries to answer questions, including recognising and controlling variables where necessary
Take measurements, using a range of scientific equipment, with increasing accuracy and precision, taking repeat readings when appropriate
Record data and results of increasing complexity using scientific diagrams and labels, classification keys, tables, scatter graphs, bar and line graphs
Use test results to make predictions to set up further comparative and fair tests.
Report and present information from enquiries

As Mathematicians we will:

Learn about and convert between metric units of measurement.
Develop our knowledge of ratio, including using ratio language and symbols appropriately; calculating ratio and scale factors.
Understand how to form and solve equations, and use this knowledge to solve problems.
