

Year One Spring Term 2 2023

In PSHE we will learn... (Healthy Me)
about being and keeping safe and healthy.

In Design and Technology we will learn...

To make a 3D model of an animal.

In Geography we will learn...

to identify seasonal and daily weather patterns in the UK. We will continue to develop our knowledge about the world, the UK and our locality. We will use first-hand observation and other geographical skills to support our learning.

In Computing we will...

Look at animated stories linked to tigers and create a digital non-fiction book.

In RE we will learn...
about the Jewish faith.

In Music we will learn...

about our world. We will listen to music linked to animals and tigers.
We will explore different sounds, rhythms and patterns in music.

The Big Question:

Why are humans not like tigers?

In Math's we will learn...

about measurement.
As mathematicians we will explore measurement in relation to length, height, weight and volume. We will look at length and height and explore the different mathematical equipment we can use to help us to measure objects accurately. We will also measure weight and volume, and explore the most accurate methods of measuring and how we can record our results. We will use words such as long/short, longer/shorter, tall/short to describe our maths work when we are measuring. When weighing, we will use the words heavy/light, heavier than, lighter than to explain our work. For volume, we will use the words full/empty, more than, less than to explain our work.

In Science we will learn...

To identify and classify creatures.
We will name the parts of animals and humans.
We will talk about what we see, touch, feel, hear and taste
We will ask and answer questions, giving simple reasons for the answers.

In English we will learn...

to write a non-fiction report.
We will explore the text 'Penguins' to support our writing. This will also link to our Science.
As authors we will use our scientific knowledge to inform our writing about different animals.
As readers we will explore stories and non-fiction books linked to our theme.
Children will have specific opportunities to engage in guided reading sessions focusing on enjoying and understanding texts as well as decoding print. We will use our phonetic knowledge to read familiar words, phrases and sentences. As well as having the chance to read independently and for pleasure!
